

Premium STEMCO Kaiser™ Qwik Kit® King Pin Kits Information Sheet

nfi.parts™

MCI

NEW FLYER

FEATURES

- Qwik Kit® Proprietary design allows for constant lubrication - No-Ream steel bushings and pins are grooved to provide an optimal stream of lubrication to high-wear areas
- STEMCO Kaiser™ Qwik Kit® King Pin Kits install faster than reamed king pins, and can last up to four times longer than original equipment and aftermarket competitors
- Proprietary high-chrome, high-carbon tool steel is found only in STEMCO king pins kits, helps balance strength and resilience
- STEMCO's king pins also showed in the Charpy Impact Test* that they stand up better to real-life peak loads such as curb strikes
- Great premium alternative to OE (Meritor) #s: MCI – 01-01-1079, NF – 6330169, Gillig – 82-24530-000

* Charpy Impact Test - a standardized high strain test – which determines energy absorption by a material during fracture.
