

Zafety Lug Lock®

Information Sheet

Zafety Lug Lock® has been engineered to ensure that wheel nuts resist loosening, maintaining balanced loads and helping to prevent wheel loss.

- Reduces the risk of potential wheel loss
- Provides a clear visual check in all weather and light conditions
- Lugs can be torque-tested without removal
- Quick and easy to install/remove
- Laboratory tested in severe vibration conditions
- Field tested at high and low rotation speeds
- 38mm (Stud Piloted), 33mm, and 32 mm (Hub Piloted) options available
- Is reusable and recyclable

Stock up on tools! Buy some for your shop and make sure that you buy one tool per coach in the event that a tire needs to be changed.
