

# Tire Chain Traction Control System

Information Sheet

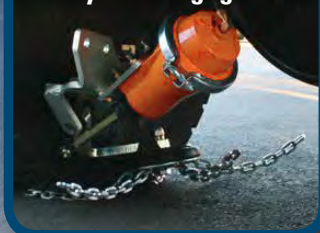

- MCI approved traction system for MCI J4500 model years 2007 and later
- Works in conjunction with tire's rotation
- Simple button deployment engages system in approximately 1.5 seconds
- Ideally used on icy roads or roads with snow depth of 4-8 inches, depending on density
- D.O.T. accepted in all states that have chain laws
- Greasable ball joints and arm bearings

## Traction system that works

### System engaged

With a touch of a button, the system deploys and rotates chains under the tire for traction when you need it.

Part No.	Description
T04-1413	Chain System - Tire, Complete, 12 Strand for MCI J4500, model years 2007 and later
