

No-Idle Electric Climate Control HVAC System for the MCI J4500

Information Sheet

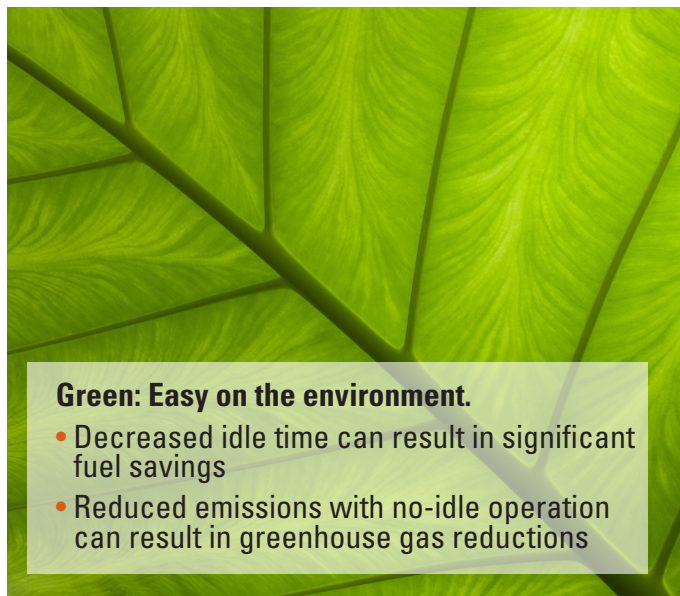

nfi.parts™

MCI

NEW FLYER

MOTOR COACH COMFORT AND EFFICIENCY. REVOLUTIONIZED.

Quiet and efficient engine-off operation eliminates unnecessary engine idling while maintaining your desired internal coach environment without harm to the external global environment.

Green: Easy on the environment.

- Decreased idle time can result in significant fuel savings
- Reduced emissions with no-idle operation can result in greenhouse gas reductions

FEATURES

- Pre-heat* or pre-cool the coach interior before you even enter with wireless connectivity and auto start system capability
- Enhance A/C performance of existing system
- Maintain interior temperature for up to 4 hours with engine off
- Reduce engine idle time - reduce frequency of emissions system cleaning and maintenance

Maximize Efficiency with use of optional rooftop solar power

- 2kW, 24V, flexible and durable solar panels provide additional charge to the battery
- Helps maintain and condition batteries for increased battery life
- Provide extended no-idle run time

HVAC system specs

- 8.7 kW A/C cooling (peak)
- 2.4 kW power (peak)

NFI Part No.	Description
6479959	ECLIMACOACH™ NO-IDLE HVAC SYSTEM
T07-3756	SOLAR PANEL SYSTEM - 2KW

*if equipped with a ProHeat or compatible fuel fired coolant heater. eClimacoach is a trademark of Bergstrom Industries.

To find out if the No-Idle HVAC System works for your coach, please contact your Regional Parts Manager or NFI Parts Customer Service representative for further information.

Information on this sheet is subject to change at the discretion of NFI Parts and/or its affiliates. Contact your NFI Parts solutions manager or customer service representative for further details.
